In the Claims

The claims, as filed, are maintained without amendment, cancellation, or addition. Claims remaining in the application are as follows:

- (Original): A method for creating album pages for a user, comprising: displaying an image to the user;
 receiving information from the user for said image, said information comprising ranking information; and
 sizing said image based on said ranking information.
- 2. (Original): The method of claim 1, further comprising generating an album page including said sized image.
- 3. (Original): The method of claim 2, further comprising generating an album page including said sized image.
- 4. (Original): The method of claim 1, wherein said image is a photographic image.
- 5. (Original): The method of claim1, wherein said image is stored as image data, further comprising storing said ranking information in association with said image data
- 6. (Original): The method of claim 5, further comprising repeating said displaying and said receiving for a plurality of images, before said sizing.
- 7. (Original): The method of claim 6, wherein said sizing comprises sizing to zero all images associated with ranking information having a value less than a particular value.
- 8. (Original): The method of claim 7, further comprising generating an album page that excludes said images sized to zero.
- 9. (Original): The method of claim 1, wherein said ranking information has one of a plurality of discrete values.

Serial No. 09/838,972

- 10. (Original): The method of claim 9, wherein said sizing comprises selecting a discrete image size corresponding to said ranking information.
- 11. (Original): The method of claim 1, wherein said ranking information is received from a keyboard.
- 12. (Original): The method of claim 1, wherein said ranking information is received from a mouse.
- 13. (Original): The method of claim 1, wherein said ranking information is received from a selection control.
 - 14. (Original): A method for creating album pages for a user, comprising: displaying to the user a photographic image, said photographic image stored as image data;
 - receiving information from the user for said photographic image, said input comprising ranking information having one of a plurality of discrete values:
 - storing said ranking information in association with said image data; repeating said displaying, receiving and storing steps for a plurality of photographic images;
 - sizing said photographic images by selecting a discrete image size corresponding to said ranking information;
 - generating at least one album page comprising said sized photographic images; and

printing said at least one album page.

- 15. (Original): A digital camera, comprising:
- a camera processor;
- a camera storage device electrically connected to said camera processor;
- a camera display electrically connected to said camera processor; and
- at least one ranking control electrically connected to said camera processor, whereby a user utilizes said ranking control to select a ranking for an image shown on said camera display.

-3-

Serial No. 09/838,972

- 16. (Original): The digital camera of claim 15, further comprising an enter control electrically connected to said camera processor.
 - 17. (Original): The digital camera of claim 15, wherein said at least one ranking control controls a cursor on said camera display.
- 18. (Original): The digital camera of claim 15, wherein said at least one ranking control controls highlighting of a ranking option on said camera display.
 - 19. (Original): A computer program product, comprising instructions for displaying an image to the user; instructions for receiving information from the user for said image, said information comprising ranking information; and instructions for storing said ranking information in association with said image.
- 20. (Original): The computer program product of claim 19, further comprising instructions for sizing said image based on said ranking information.
